The screenshot shows the HKMOOC login interface. At the top, there is a 'Log In' button. Below it, a row of university logos is displayed. A red oval highlights the 'Universities Login (via HKAF)' button. Below this, there is a 'Log In with other account' link and a 'New user? Register' link. The HKMOOC logo is prominently displayed in the center. Below the logo, there is a section for 'Login to HKVU Single Sign-On' with the subtitle 'SSO service of Hong Kong Virtual University'. A red arrow points from the 'Universities Login (via HKAF)' button to a search box labeled 'Search for your organisation'. Below the search box, a list of universities is shown, with 'City University of Hong Kong' highlighted by a red oval. A red arrow points from this selection to a blue button labeled 'Continue to your organisation', which is also circled in red. At the bottom, there is a checkbox for 'Remember this selection permanently'.

## About This Course

This is a flipped classroom course for CB2500 Information Management offered by City University of Hong Kong. The course aims to provide students with hands-on experience on various social analytics and business intelligence tools with particular focus on text topic analysis, association detection, and cluster analysis. Modules 1-3 are compulsory to all CityU students and Modules 4-5 are optional. Using this online platform, students are allowed to set up their own learning schedules, read notes, watch videos, jot notes, take self-assessed module quizzes, and discuss on a class forum. Please note that the performance in this online course won't affect your grade in CB2500. However, the technical skills you learnt in modules 1-5 of this course are
