Week 2: Feedback to Students

CB2500 Information Management

Smart Banking (BI)
Smart e-Services (ISSN)

Smart IS Auditing (ISA)
Smart Global Business (GBSM)

Reminder of Bi-Weekly Lecture Quiz (Week 3)

- Now Available on Canvas

- Due date: End of Sun in Week 3

- Scope: Lectures 1-3

- Format: 10 Multiple Choices

- You can try 3 times

- Voluntary but strongly recommended!

Week 2 Tutorial Discussion

- 0 score for following answers:

  – empty or "Yes!"

  – "it is because of the technology development, the need of labour may decrease so they will disappear in the next 20 years" irrelevant

  – "Because most of the data and information can be process and mine in the internet by the computer, that means the job can be replaced by computer in the future." not related to tax preparer and telemarketer

- Acceptable but insufficient answers:

  – "The artificial intelligence will replace these jobs."

  – "because all these kinds of work will be replaced by robot"

  – You don't explain how. Only partial credits or even 0 in real exam.

- Best answer:

  – "It is because jobs that are on some level routine, repetitive and predictable will have a higher probability of automation. Telemarketing is highly routine, while tax preparation involves systematically processing large amounts of predictable data."

(Week 2 Tutorial) Comments

- Some students copied and pasted sentences from original article without paraphrasing
- It's a kind of plagiarism. Please always paraphrase and cite your original source (e.g., Author (Year) mentions that …) if you want to make a reference.
